PLAN MEMORIAL STATUE TO UNIVERSITY FOUNDER

Tribute to Archbishop Carroll by Georgetown—Program of Celebration Events.

During the week of April 21 Georgeown University will have one of the largest celebrations in the history of the institution. A statue of Archbishop Carroll, the founder of the Hilltop institution, is to be erected in front of the main entrance, in the center of the circle which now contains a bed of flowers. This new statue is the gift of the Alumni Association, and will be unveiled at a date late

The figure of the archbishop will be n a standing position, elevated on a square pedestal of stone, and will represent the founder of the Blue and Gray institution in the garb of the Jesuits-a long habit. The work when completed will, it is claimed, be one of the finest specimens of its kind in the city and a fitting honor to one who labored in founding one of the first institutions for high learning in this country.

Among the Attractions.

Manager Haggerty announced las evening that he planning to have a big base ball game as one of the sporting attractions during the celebration of a week in the spring. The West End manager has opened negotiations with the University of Pennsylvania for a date during that week and expects to have all the arrangements for the game made by the end of the week. The annual games between the nine from the Quaker City university and the local aggregations have always resulted in very close scores and have been among the most interest

ing battles of each season.

According to the present plans, Manager Kingsley will hold an outdoor track meet on the Hilltop during the same week, and as these games wi close the local track season for the year the best intercollegiate talent is expected to participate. Special relay events will be arranged, as well as races of local interest among the high schools of this city and the colleges in this vicinity.

Alumni to Take Part.

Members of the Alumni Association will come from all parts of the country to do honor to the founder of their alma mater. The celebration will, it is predicted, assume larger proportions than the centennial that was held at the local university in 1889, and will go down in the history of the Blue and Gray institution as one of the biggest celebrations held since the school was founded. A office of the bureau of standards, Depart- of the alumni, and there will be speeche ment of Commerce and Labor, February
